PROFESSIONAL SUMMARY

Front-End Developer with 3+ years of experience building web and cross-platform mobile applications using Angular, TypeScript, Ionic, and Capacitor. Working at MaktApp on Fatora, a Qatar-based fintech platform, contributing to production application development, frontend architecture, REST API integrations, and mobile releases. Also led frontend implementation for BidRadar, a Saudi B2B SaaS platform, contributing to its technical direction and initial production launch.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, responsive UI, Tailwind CSS
State Management: NgRx, RxJS
Cross-Platform Mobile: Ionic, Capacitor, iOS and Android builds, App Store and Google Play releases
APIs: RESTful APIs
Tools & Workflows: Git, Azure DevOps (TFS), release workflows, Agile
Additional: Custom Capacitor plugin development, frontend security, technical documentation, PRD authoring

PROFESSIONAL EXPERIENCE

Front-End Developer | MaktApp — Fatora Product (Remote) **August 2023 – Present**

- Contribute to the development and maintenance of Fatora, a cross-platform fintech application for the Qatari market, built with Angular, TypeScript, Ionic, and Capacitor.
- Implement frontend features, responsive interfaces, and REST API integrations across iOS, Android, and web.
- Work with NgRx and RxJS to manage application state and asynchronous data flows.
- Integrate Fatora POS as an embedded module within the mobile app, supporting a unified payment workflow.
- Refactor legacy frontend code and investigate production issues to improve application stability and maintainability.
- Work with Azure DevOps (TFS) and mobile release workflows for App Store and Google Play submissions.
- Resolve cross-platform UI issues and develop custom Capacitor plugins when native functionality is required.
- Prepare technical documentation and onboarding materials for the frontend codebase.

SELECTED PROJECTS

Fatora — Fintech & Payment Platform
Angular · TypeScript · Ionic · Capacitor · NgRx · RxJS
Contribute to the mobile and web frontend for a Qatar-based payment and merchant platform, including feature development, API integration, POS embedding, and mobile releases.

BidRadar — Saudi Tender Intelligence Platform
Angular · TypeScript · Tailwind CSS · ApexCharts · Angular CDK
Led frontend implementation and contributed to technical direction, PRD authoring, stack selection, and a six-phase delivery roadmap. Delivered the initial production release with tender discovery, Kanban-style tender management, analytics, competitor intelligence, and notification features.

EDUCATION

Information Technology Engineering — Syrian Virtual University, Syria (In Progress)
